# NATIONAL ANTHEM

The Indian National Anthem, composed originally in Bengali by Rabindranath Tagore, was adopted in its Hindi version by the Constituent Assembly as the National Anthem of India on 24<sup>th</sup> January 1950. It was first sung on 27<sup>th</sup> December, 1911 at the Calcutta session of the Indian National Congress. The complete song consists of five stanzas. The lyrics were rendered into English by Tagore himself.

“Jana Gana Mana Adhinayaka Jaya He  
Bharata Bhagya Vidhata  
Punjab Sindh Gujarat Maratha  
Dravida Utkala Banga  
Vindhya Himachala Yamuna Ganga  
Uchhala Jaladhi Taranga  
Tava Shubha Name Jage  
Tavashubha Ashisha Mange  
Gahe Tava Jaya Gatha  
Jana Gana Mangaladayaka Jaya He  
Bharata Bhagya Vidhata  
Jaya He! Jaya He! Jaya He!  
Jaya, Jaya, Jaya, Jaya He”  
**JAI HIND!**

#### Translation of the National Anthem 'Jana Gana Mana' in English

Thou art the ruler of the minds of all people, dispenser of India's destiny.

The name rouses the hearts of Punjab, Sind, Gujarat and Maratha, of the Dravid and Orissa and Bengal.

It echoes in the hills of Vindhya and Himalayas, mingles in the music of Yamuna and Ganga and is chanted by the waves of the Indian Sea.

They pray for your blessing and sing thy praise. The salvation of all people is in thy hand, thou art dispenser of India's destiny. Victory, Victory, Victory to thee!

**[May the peace, mercy, and blessings of Allah be with you]**

**W**e would like to welcome you all into the world of CREATIVITY by invoking the name of Allah, the most benevolent and the most merciful. Without HIS will and direction we could not have reached where we have and scaled the heights which we have. Full name of our school is Manipur Creative School (MCS) but we call ourselves by the acronym MCS. We make great play of the 'C' in our shortened name. It stands for CREATIVITY as many of our teaching methods are not available in most of the schools in Manipur in particular and in India in general.

Alhamdulillah! our mission is to establish as many schools as capable or required throughout North East to realize the vision of inspiring and empowering youths through Education.

It gives me a great pleasure to introduce Manipur Creative School (MCS). MCS offers the young generation to mold the future of our country, in addition to Holistic Education, Innovative Learning and Creative Research that can correspond to the current technological and global scientific progress, along with well-rounded education which has balance between practice and theories. We are nurturing the students with CREATIVITY and HUMANITY with many internationally acclaimed teaching methodologies by combining easy-to-understand classes and PBL (Project-Based Learning, collaborative learning of the project) including exercises, training and experiments. MS Education Academy, Hyderabad, our strategic partner has been giving training to all staffs of MCS and helping us to implement two of the most important methodologies i.e. Z to A Approach and Mind Mapping which helps in exploring innovative & pragmatic ideas to the students besides helping them in retaining memory for longer period.

MCS assures you that you will get the best, quality teaching, state of the art academic and infrastructural facilities. We're again assuring you that there won't be any compromise with QUALITY EDUCATION in our school.

# Message from Principal

"EDUCATION IS NOT PREPARATION FOR LIFE; EDUCATION IS LIFE ITSELF." - JOHN DEWEY

**ASSALAMU ALEIKUM! Dear Brothers and Sisters,**

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At MCS, we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he or she is able to reach greater edge of education.

Learning happens all the time; not only in a per-designated place called the school. It happens in our home too. The home's and school's mission, therefore, is to provide a learning environment and opportunities to the children as learners. Our distinctive academic events and innovative world class teaching methodologies encourage students to develop critical-thinking and learn through inquiry and reason, to exchange thoughts and ideas. Our curriculum for young children provides all the areas of a child's development; physical, social, emotional and cognitive. We support inclusive education thereby making differently able children to take part in our course of education.

At MCS, the approaches to learning are child-centric, activity-based learning and inculcating a scientific temper and a spirit of free enquiry. We do not let any student left behind in our educational journey. We implement a system called AICU (Academic Intensive Care Unit) where late bloomers or slow learners are designated to educate in this system. They will be groomed up to an optimal level of education. After that they are made learnt with the normal students. The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. I pay my gratitude to them for their faith in us. I am confident enough that the MCSians will make themselves stronger day by day, adding a new leaf to the grandeur of the school.

MCS assures you that you will get the best, quality teaching, state of the art academic and infrastructural facilities. We're again assuring you that there won't be any compromise with **QUALITY EDUCATION** in our school.

We value igniting the spark of creativity and curiosity in our students.

**With Best Wishes & Regards,**

# PARENT'S CORNER

We believe that, to enable each child to achieve their full potential, it is important to develop and maintain a positive partnership between home and school. The research tells us that when parents are involved in their child's education the child will do better. The MCS Diary is one of the ways in which we inform parents, not just about your Child's works, but also about how you can help us your children to succeed in this world and hereafter.

On joining school after an illness, it is mandatory that the student submits a medical certificate to avail benefit of average marks in an assessment missed. Repeated or extended leave without proper application can lead to child's name being struck off the rolls. Re-admission will only be granted after completion of a fresh admission procedure. An application must be written on a neat, plain paper and not on a ruled sheet. It must be duly signed by the parents and handover it to class master for one day or principal for more than two days. The school diary provided by school is an important mode of communication for the parents, students, teachers, and the school authorities.

Before the new academic session starts, kindly read all the pages of the prospectus and diary with your child to have a proper understanding of the school system. Circulars containing important information for the parents are regularly sent via the diary, WhatsApp, and classroom notification. Similarly, in case you wish to convey important information to your child's teachers, you can use our school diary.

- Kindly ensure that your child arrives school five minutes before the school starts
- Your child must maintain an attendance record of 75% during the academic year, failing which he or she shall not be allowed to appear the Final examination.
- You are not permitted to visit your child's classroom during school hours.
- Please note that no student shall not be allowed to go outside the school premises unless a formal request is submitted by the parent or permission granted by the principal.
- If you wish to meet the principal or teacher in the school, you can send a note in the diary or call for an appointment. Do not walk in directly, we may not be prepared to help you properly.

**Note:** Please make sure that your child carried the diary, tiffin and ID card every day for ensuring effective learning process.

## **Suggestion and Support:**

We welcome your valuable suggestions to improve our policies, practices, and programs. There is a suggestion box at the entrance. Kindly drop your feedback in the Suggestion box at any time. We look forward for a wonderful and successful partnership to achieve the true success in this world and the hereafter.

For any task to be accomplished well, a set of rules need to be followed. Similarly, we have set some rules which can help you enjoy your school life better and help you to mould yourself into a well balanced, polished and successful human being. These rules do not bind our free spirit. They are meant to help us blossom individual in an organized and orderly environment. We will start with the MCS Honour Code which defines MCSian's general code of conduction school, at home and in society at large. Then we will review the specific rules to be followed in school.

## MCS Honour Code

### **Guide to a Caring & Sensitive MCSian**

In every sphere of life, "Care" is the magic word. All the problems in the world can be solved with care. Therefore it is essential to develop a caring and sensitive approach. The common idiom today is "Who cares?" Well! MCSian's reply to this is, "We do" Because, we can never be a true human being until we care and love others as we love and care ourselves.

### **Caring for your Family**

It is important to lend a helping hand to your parents, grandparents, uncle's aunts and siblings. Make sure that you share the work with your father & mother.

## STRATEGIES FOR SUCCESS

A strategy involves using a plan of action to achieve a certain goal.

To achieve success you need to use a variety of strategies, such as the ones listed below.

Discuss them with your parents or a teacher.

### STRATEGY 1 - Listen Carefully

- In the Classroom, concentrate on what is being said and ignore other distractions.
- Ask questions if something is not clear.
- Focus should be to learn concepts in the class itself.

### STRATEGY 2 - Make Smart Notes

- When you take down notes, see to it that you record key-words in your memory note-book. This will help you learn answers fairly quickly.
- When learning at home, write down only important facts and idea and try to correlate them to familiar things, important dates, colors etc.
- Number the major points in a chronological order.

### STRATEGY 3 - Choose the right place to study

- Try to do your work in the same quiet place.
- Ensure that your work place is well lit to avoid tiring your eyes.
- Keep your work space tidy and use a firm chair.

### STRATEGY 4 - Be Disciplined and Curious

- Make it a habit to do things in a timely manner.
- Refer additional books to get in-depth knowledge on any subject. This will give you a competitive edge.
- Enroll at the local or central library to do quality study.

## STRATEGY 5 - Revise Effectively

- A time-table for revision should be made and followed religiously.
- Revise in short bursts; stop when your mind begins to wander.
- Write important points while studying, it helps you memorize and retain better.  
Just reading will not be so effective.

Each student is different from the other, in the way he/she works and plans things. In the opinion of experts, all that we achieve in life depends upon the manner in which each task is done and how TIME is managed.

## MANAGING TIME IN THE CLASSROOM

- Keep books ready before start of any lecture.
- Always have the Diary ready to note down details of important Home-Work/Tests/Exams/Projects.
- Listen to the lecture attentively.
- Underline or write important points in the text book while the teacher is explaining.
- Take down notes as soon as the teacher starts writing on the blackboard.

## MANAGING TIME AT HOME

- As soon as you reach home, freshen-up and have a snack.
- Relax or play for a few minutes (30- 45minutes).
- Prioritize the work to be done. (Check your Diary for Tasks that are coming due.)
- Do these tasks in session of 45 minutes each and take a 15 minutes break before you start another session.
- Choose the most difficult subject first.
- Tick-off and Date-mark tasks that are accomplished.
- Re-schedule tasks that are left incomplete.
- Reflect regularly on your productivity and the amount of time spent.
